

To whom it may concern,

I am writing in respect of Callan Chesser who attended Summer in the City Kids Camp during our holiday programme. I am writing this letter of reference for a young boy who came into an unknown environment and performed exceptionally well amongst his peer group.

Callan performed all many technical and organisational duties relating to our theatre and drama camp from lighting to sound engineering as well helping with performance run throughs. Callan approached his duties with a level of maturity that is rare to find in a young adult. He mixed very well with his colleagues as well as our campers. All staff noted his value and his tenacity. I would characterize Callan as observant, determined, conscientious and eager to learn.

It would be my pleasure to provide any further information that you may need with respect to Callan.

Kindest regards,

Nicola Pitticas
Camp Director SiTC Kids Camp
